INTRODUCTION

WHY THIS MATTERS

SKY Campus helps create more joyful, resilient campus communities through breathwork, meditation, and leadership.

A clear and consistent brand helps build trust, spread our message, and make every event and flyer feel like part of something bigger.

WHO THIS IS FOR

This guide is for anyone using SKY Campus branding, volunteers, club leaders, social media coordinators, or event organizers. You don't need to be a designer! We've made this easy to follow with examples and templates you can use right away.

Tailor—Made

BEHIND THE DIRECTION

The SKY Campus brand is designed to feel vibrant, inviting, and full of life, just like the experiences we create on campuses.

We chose bright colors, clean typography, and playful graphic elements to reflect the energy, clarity, and joy that SKY brings to students. Our design direction aims to stand out in a busy campus environment while staying grounded in the core values of mindfulness, resilience, and community.

Every visual choice, from the soft curves in our graphics to the bold, optimistic palette is meant to help the brand feel approachable, uplifting, and authentically student-centered.

This isn't just about looking good, it's about embodying the SKY experience in every touchpoint.

Logo

Primary Logotype

The SKY Campus Happiness logo is composed of two key components: the “sky” symbol and the supporting wordmark “campus happiness.”

THE “SKY” SYMBOL The word “sky” is custom-drawn to feel bold, joyful, and grounded. Its playful curves reflect the uplifting energy of SKY’s programs, while its solid form conveys stability and presence. This is the most recognizable and iconic part of the logo and must be used exactly as provided.

THE “SKY” SYMBOL Set in a rounded geometric sans-serif, the wordmark balances the boldness of “sky” with a feeling of softness and openness. It was chosen to feel approachable and modern—mirroring the calm clarity SKY brings to student life. The spacing and alignment between “sky” and “campus happiness” have been carefully refined and should not be modified.

Color Variation

The logo is available in two approved colorways:
Full color (positive): Bright blue on light backgrounds
Reversed (inverted): White on dark or photographic backgrounds
These versions ensure optimal legibility and contrast across various use cases—print, web, slides, and more.

DARK

LIGHT

Versions & Variations

The SKY Campus Happiness logo comes in two orientations:
Horizontal: The primary and preferred version, with “sky” and “campus happiness” side by side.
Stacked: A vertical lockup with “sky” on top and “campus happiness” below, for use in narrow or square spaces.
Both orientations have been carefully spaced and optically balanced. Please do not adjust the placement or sizing manually,always use the source files provided to ensure consistency and clarity.

HORIZONTAL [PRIMARY]

STACKED [SECONDARY]

Safe Zones

To preserve the clarity and impact of the SKY Campus Happiness logo, it’s important to keep a consistent clear space around it, free from other text, graphics, or edges. This “safe zone” ensures that the logo always appears balanced, legible, and visually distinct, especially in crowded layouts.

Correct Use

To maintain brand integrity and ensure consistent recognition, the logo must not be stretched, outlined, or altered with effects like drop shadows, as these distortions compromise its clarity and impact.

INCORRECT LOGO USAGE

Do Not Stretch
Logo Horizontally

Do Not Stretch Vertically

Do Not Turn Logo

Do Not Add A Shadow

Do Not Outline

Campus Logos

Campus logos have been updated to ensure clarity, consistency, and alignment with the SKY Campus brand. These logos are designed to support local presence while keeping the spotlight on our primary SKY Campus logo.

Consistency First: Each campus logo follows a unified horizontal format to maintain brand cohesion across locations.

No Custom Variations: The logo is only available in the standardized horizontal layout and should not be edited, stacked, or reconfigured in any way.

Clear Hierarchy: This structure ensures that while each campus feels represented, the SKY Campus identity remains primary and instantly recognizable.

Typography

Our Brand

Typography is one of the most visible elements of the SKY Campus brand. We use clean, open, and humanist fonts that reflect our values of clarity, friendliness, and approachability. We've selected two typefaces, both available for free on Google Fonts, to ensure consistency across all digital and print materials.

Headline Treatment is Typeset in *Merriweather Medium*

HEADLINES
Merriweather Regular
Title Case, tracking 0

SUBHEADERS UTILIZE SOURCE SANS REGULAR

SUBHEADERS
Source Sans, Regular
All-Caps, tracking 75

Body copy is typeset in Source Sans Regular at a minimum size of 9pt to maintain the utmost legibility.

Source Sans Regular

TYPOGRAPHY

BASIC RULES

Headlines should grab attention but still feel calming and spacious.

Body text should always prioritize readability and balance.

Use consistent sizing and spacing across your layout.

LEDDING & SPACING

Headlines may have tighter leading equal to font size.

Body text should use slightly looser leading for clarity (1.2× the font size is a safe default).

Maintain generous padding and whitespace between text blocks to avoid crowding.

WHAT TO AVOID

Using other fonts outside the approved pair

Using ALL CAPS in body text

Tight line spacing or inconsistent font sizes whitespace between text blocks to void crowding.

Our Color World

SKY Campus Happiness draws its energy and optimism from nature. Our color palette is inspired by the elements of the natural world,the sky above, the clouds that move through it, the sun that nourishes, and the earth that blooms below.

Each color serves a purpose: to support clarity, warmth, and a feeling of upliftment. The palette is designed to stand out on campus while remaining calm, friendly, and easy to use across both print and digital formats.

Correct Rules

When using the color palette, it is important to remember that good contrast is key, Text, illustrations, logo and stats must be especially visible on a page
The base of any design should always be in our primary palette in order to maintain brand consistency

COLOR

Correct Rules

Photography

Our Photos

SKY Campus's photo world is designed to feel uplifting, authentic, and relatable, mirroring the energy of real campus life and the joy of inner well-being.

Our photos should always be:

Well-lit and natural (avoid harsh shadows or artificial filters)

Age-appropriate and inclusive, reflecting real college students and diverse backgrounds

Set on campus or in relatable settings, like classrooms, dorms, libraries, or outdoor campus spaces

Rooted in presence, capturing real moments of calm, connection, and leadership

This imagery helps ground our mission in a visual language that students instantly recognize and trust.

PHOTOGRAPHY

Photos can be abstract

Photos can feature students in actions other than meditation or yoga

Photos can feature college campuses

Graphic Elements

Our Graphic World

The SKY Campus graphic world is rooted in the five elements of nature, earth, water, fire, air, and space. These organic, geometric forms add vibrancy and movement to our brand, helping us communicate in a way that feels expansive, grounded, and joyful. Each graphic element is designed to be modular and flexible: Use them as decorative accents to bring energy to a page Scale them up as bold containers for text or photography Layer them with color to create visual rhythm From social media posts to workshop slides, these forms bring SKY’s mission to life visually—connecting design to the breath, the body, and the world around us. .
